This is in response to Applicants' election and amendment filed July 2, 2004.

Applicant's election of Group I, claims 1-18 and 24-26, in the reply filed on July 2, 2004 is acknowledged.

The following is an examiner's statement of reasons for allowance: The prior art fails to teach a testing system comprising, among other features: a handling system having a loading device for automatically loading and unloading each of laser diode sub-assemblies into and out of one or more collets, and a carousel with one or more nets, each supporting one of the one or more collets for moving each collet from a loading position to one or more testing positions and to an unloading position; an optical system for performing one or more tests to measure functionality of each laser diode sub-assembly; a detection system for detecting characteristics for each laser diode sub-assembly; and a control system providing control instructions to the optical system.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

I) Cavaliere et al 5,498,973 disclose a system for testing laser diode devices including a loading device.
